FEATURES

B-KSOUND
B-KSOUND soundbar lets you listen to audio from your TV, BT/V3 via a Bluetooth connection and lets you control the sound.

HDMI
HDMI transmits video and audio signals simultaneously, and provides a clearer picture. The unit is also equipped with the ARC function which lets you listen to sound from your TV through the Soundbar via an HDMI cable. This function is only available if you connect the unit to an ARC compliant TV.

Wireless Subwoofer
The subwoofer connects and communicates with the Soundbar automatically.

Wireless Microphones
2pcs wireless handheld microphones are designed for B-KSOUND, automatic connection with B-KSOUND after the devices are turned on.

Multi-function Remote Control
You can use the supplied remote control to control various operations on B-KSOUND and BT/V3 with the simple press of a button.

Bluetooth Function
You can connect your BT/V3 or other Bluetooth devices to the Soundbar and enjoy music with high quality stereo sound, without any wire!

DESCRIPTIONS

REMOTE CONTROL
REMOTE CONTROL BUTTONS AND FUNCTION

CONNECTIONS

CONNECTING THE WIRELESS SUBWOOFER
The subwoofer is preset at the factory and the B-KSOUND Soundbar and subwoofer should link (connect wirelessly) automatically in 30-60 seconds when the B-KSOUND Soundbar and subwoofer are power on.

Interfaces and function of the subwoofer

1. AC power input: AC100-240V/50-60Hz
2. LED indicator
 - a) LD logo(Subwoofer) and Display (Soundbar) blinks: the Soundbar and subwoofer are now connecting
 - b) LD logo(Subwoofer) and Display (Soundbar) on: the Soundbar and subwoofer should now be connected
 - c) LD logo(Subwoofer) off: the subwoofer is in STANDBY mode/powered off

- If the LD logo on subwoofer does not light when the Soundbar and subwoofer are turned on, please turn off the 2 devices and start again for re-connection.
- While the Soundbar is powered off (in STANDBY mode), the subwoofer will go to STANDBY mode automatically in 5 seconds.
- The wireless transmit distance between the Soundbar and subwoofer is 5-10meter, please ensure the installation of the 2 devices is within this distance.

CONNECTING THE WIRELESS MICROPHONES

CONNECTING THE WIRED MICROPHONES

* The 2pcs wired microphones are not included in the standard package, please purchase them from Legacy Direct www.legacydirect separately

FCC Caution.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
